Prof. Usha Verma,
Professor and Head,
P.G. Department of Geography, Patna University
for M.A. Semester IV (2018-20)
Paper: EC-02 (Project work/ Dissertation)

Brief Outline of Proposed Project Work
Approved Topic No. 5

Title : Demographic Profile/ Attributes of ………. District of Bihar

(i) Certificate by the Supervisor/ Head of the Department
(ii) Acknowledgement
(iii) Preface – Significance and relevance of the study
(iv) Contents-

<u>Chapters</u>   -   <u>Page No.</u>

1.   1 - …
2.
3.
4.
5.

Chapter 1 – Introduction

1.1 Define demography
1.2 Components of demography
1.3 Importance of demographic data analysis for planners, researchers and policy makers
1.4 Objective of the study
1.5 Methodology
  ▪ Sources of data and information -Primary, secondary, tertiary
  ▪ Sources of Maps
  ▪ Compilation and computation of data

- Analysis of data – statistical/ empirical

Chapter 2 – Geographical Personality of Study Area

2.1 Locational Extent
- Latitudinal, longitudinal extent
- Location with respect to railway and road accessibility, connectivity with other districts towns and cities

2.2 Historical Background

2.3 Administrative Division
- C.D. Blocks- Area, Population, Headquarters

2.4 Physical Background (in brief)
- Relief and drainage
- Climate
- Soil
- Vegetation
- Landuse

2.5 Economic Background
- Agriculture
- Industries
- Services

2.6 Physical Infrastructure
- Transportation- Road, railways
- Electricity
- Irrigation

2.7 Social Infrastructure
- Medical facilities
- Educational facilities
- Health, hygiene and sanitation
- Availability of potable water

2.8 Cultural Aspects

Chapter 3 - Population growth and distribution

3.1 Size of Population –
- Share in state's total population

- Percentage of area and population of state's total

3.2 Growth of population –
- Temporal Aspects- 1971/1981- 2011 (as per availability of data)
- Spatial Aspect- 2001-2011 Analysis of block level data
- Analysis of population growth trend

3.3 Distribution of population
- Spatial variation at Block level
- C D Block- Share of district's total population
- Density of population – Change in population density 1971/1981-2011
- Blockwise variation in population density 2001-2011
- Analysis of population distribution

Chapter 4 – Composition of Population

4.1 Male female composition

4.2 Sex ratio – Total and child sex ratio

4.3 Age and Sex Composition of Population

4.4 Rural- Urban Composition – Number and size of towns

4.5 Caste composition

4.6 Literacy rate- Total, male, female

4.7 Workers-
- Main workers, Marginal workers, Non workers
- Rural Urban composition of workers

4.8 Occupational structure

Analysis of computed data

Chapter 5 – Population and availability of Physical and Social Infrastructure

5.1 Population and availability of Educational Institutions – Primary, Secondary and higher education

5.2 Population and Medical Facilities
- Doctors/ 1000 persons
- Beds in hospital/ 1000 persons

- Government Hospitals
- Private Nursing Homes

5.3 Population and Sanitation
- Availability of clean water for domestic use
- Drains and Sewage
- Solid waste Disposal in urban and rural areas

5.4 Impact of Swachchta Abhiyan in Rural and urban areas

5.5 Population and Environment
- Green Cover, Soil Pollution, Noise Pollution, Water Pollution etc.

Chapter 6 – Conclusion and Suggestions
- General Summary
- Findings
- Conclusion and suggestions

List of Maps - Depending on data analysis

References – Books, Journals, Published/ Unpublished Ph. D Thesis & others, Internet- online available materials.
