PAPER 2

UNIT-1

INFORMATION ANALYSIS AND REPACAKAGING

- ▶ CHAPTER -1
- ▶ INFORMATION REPACKAGING: CONCEPT AND NEED
- ▶ **CONCEPT-** Packaging of information is a physical recording arrangement and presentation of information on a given medium and a given form. Repackaging of information refers to the presentation
- ▶ Information in more understandable, readable, acceptable and usable forms. Information repackaging is a method to pack the consolidated information within the type that is usable for library users. The aim of repackaging is to reinforce the acceptance of usage of information source and assimilation and recall of their contacts. Information repackaging is an aid for converting books to e-books which enables library users or researchers to access information materials in a distance with the use of networks devices like computers and enables the information materials to be used by more than one person at same time. Information repackaging is a way of improving library services it includes translation , literacy ,scientific and technical information.

NEEDS:-

1. TO CUSTOMIZE INFORMATION TO USER NEED- information repackaging enable library users to obtain information related to their of interest. This help library users in time saving.
2. TO FACILITATE DISSEMINATION , ORGANISATION AND FOR COMMUNICATION- Libraries are able to facilitate dissemination of information using e-books, CDs and DVDs.
3. TO SIMPLIFY INFORMATION RETRIEVAL - by use of bibliography able to understand which books are present in collection.
4. TO FACILITATE INTERACTION BETWEEN USER, USER KNOWLEDGE BASE AND TECHNOLOGY - through the use of computer catalog this will enable the user to interact with the knowledge base of the library collection.
5. INFORMATION MATERIAL CAN BE USED FROM A DISTANCE - information repackaging is an aid of convert books to e-books which enables library user access information in distance.
6. IT ENCHANCES CORPORATE DECISION MAKING - information in more understandable ,readable ,acceptable and usable forms which allows decision making . Repackaging information a library collection makes it easy and faster decision making on their resources.
7. TO FACILITATE SAVING OF INFORMATION- Information repackaging act as a backup tool example in case a book last in a library , the information materials in a library the information materials will be available in e-books form.
8. AS A TOOL OF TRANSLATION - Library users are able to access information in their preferable language hence this makes libraries became more user friendly.
9. UPDATED INFORMATION- it ensures currency, accuracy , comprehension and convenience of users.
10. REPACKAGING INFORMATION ENABLES UTILIZATION OF MEDIUM TECHNOLOGY - like use of computers and telecommunication network by user to access information materials in libraries.

THANK YOU
