## Remedial Coaching Classes Report

The objective of remedial teaching is to give additional help to The Students of PMIR, Rural Studies & PGDISM who, for one reason or another, have fallen behind the rest of the class in the subjects.

Some of them, however, may be less able to organize their perceptions or to comprehend abstract ideas and concepts. Some may have poor memory, poor level of motivation, short span of attention in College or associated behavioral problems. Above all, owing to encounters of failure they tend to have low Expectations of themselves and, having rarely distinguished themselves at College ,also have low aspirations.

Once we understand this, we will begin to view our Students from a different perspective and try to accept their learning difficulties as a transient and soluble problem. We will begin to see our Students who can be taught and helped to overcome their learning difficulties.

It is essential for a remedial teacher to understand thoroughly the strengths and weaknesses of their Students so that appropriate teaching approaches can be adopted to meet their individual needs. Although these Students are low academic achievers, they are not necessarily limited in abilities or that their attainment will remain permanently low.

With proper remedial help, the use of stimulating teaching strategies, and closer supervision and more individual attention, these Students' interest in learning will be aroused and they would make better progress.

The ultimate aim of remedial teaching is to help Students who have fallen behind to learn to the best of their ability and to bring them back into the mainstream classes as far as possible.
